

BIOCLINICA RESEARCH

Research Partnership

Lake Nona Medical Arts is a partner of the Bioclinica Research. With this partnership, Lake Nona Medical Arts is able to offer opportunities to its patients to be a part of ground breaking research.

Bioclinica Research, formerly Compass Research, has been fulfilling its mission to improve human health through clinical research by following their core values of Integrity, Collaboration, Quality, and Results, since 2006. Bioclinica Research has partnered with hundreds of pharmaceutical companies to improve the quality of life for people around the world for a broad range of health conditions. With an experienced team of board-certified physicians and support staff, Bioclinica Research is renowned for its high-quality, study-related care and work in advancing medicine.

AREAS OF RESEARCH

Why Should I Participate?

Two reasons: to **help yourself** and to **help others**. There is a possibility the treatment being tested will improve your health or your condition. You may also decide to participate in a clinical trial for the satisfaction that comes with being part of a scientific research study that may help others. Every day there are people hoping for a breakthrough treatment that will make coping with their condition easier, or cure it all together. Clinical trial volunteers help make those discoveries available to people throughout the country and possibly around the world.

- Alzheimer's Disease/ Alzheimer's Prevention
- Amyotrophic Lateral Sclerosis (ALS)
- Cluster Headaches
- Diabetic Peripheral Neuropathy (DPN)
- Depression
- Fatty Liver Disease
- Fibromyalgia
- Gout
- Healthy Volunteers
- Low Back Pain
- Lupus
- Migraine
- Multiple Sclerosis (MS)
- Osteoarthritis of Hip
- Osteoarthritis of Knee
- Parkinson's Disease
- PTSD
- Small Fiber Neuropathy

How Much Does it Cost?

All services are absolutely free and health insurance is not necessary. When a volunteer enrolls into a clinical trial they receive compensation for their time and travel.
